

# SC6T

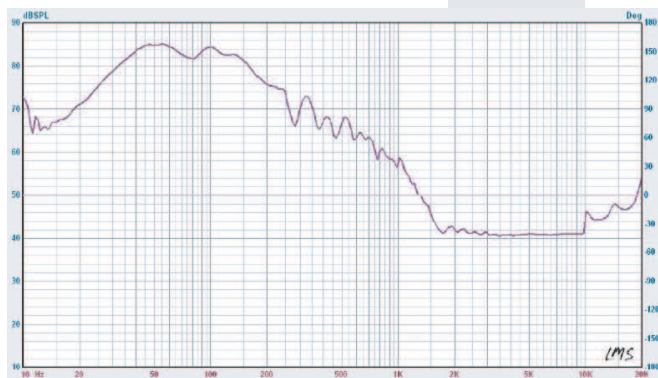

## MORE IMPORTANT THAN POWER : PRESENCE

The ceiling loudspeaker / subwoofer SC6T is conceived to bring bass present and detailed for applications in Public Address in association with the other ceiling loudspeakers of ATAO Audio System®. Its power 60 watt RMS offers a reserve which allows important dynamics differences to reproduce while getting a sensation of comfort in prolonged listening.

Available in white finishing in ABS, this neutral and discreet ceiling loudspeaker / subwoofer blends in with all types of environments. For a quick and easy installation of powerful fixing springs assure a perfect fitting of the loudspeaker in its accommodation. It is fitted with a metal grill and work under 100V or in 8 Ohms..

**The patented process Atao Audio System® allows a reproduction and a broadcasting of true sound close to direct listening.**

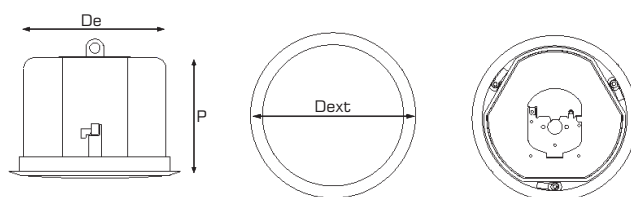

Frequency Response between 30 Hz and 180 KHz

### Technical characteristics

Boomer :	6'' 1/2
Power :	60W
